Low-Income Public Housing Development; Processing Procedures; Prototype Cost Determination

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 841

[Docket No. N-81-1073]

Low-Income Public Housing Development; Processing Procedures; Prototype Cost Determination

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice of prototype cost determinations under 24 CFR Part 841.

SUMMARY: This Notice establishes prototype limits for development of low-income public housing and Indian housing new construction projects under the United States Housing Act of 1937. The prototype cost determinations stated in this Notice supersede the prototype cost schedules published on December 2, 1980, and all amendments and additions to such schedules, published prior to the date of this Notice.

EFFECTIVE DATE: June 29, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Jack R. VanNess, Director, Technical Support Division, Office of Public Housing—Room 6248, 451 7th Street, S.W., Washington, D.C. 20410, (202) 755-4956 (This is not a toll-free number).

SUPPLEMENTARY INFORMATION: The United States Housing Act of 1937 requires determination by HUD of the costs in different areas for construction and equipment (prototype costs) of new dwelling units suitable for occupancy by low-income families. This determination must be made at least once a year and published in the **Federal Register.** The prototype costs constitute a limit on development cost for construction and equipment of new public housing projects including Indian projects.

The schedules in this Notice represent the semi-annual update of per unit prototype cost limits for development of public housing under 24 CFR Part 841 (see Section 841.204), and of Indian Housing under 24 CFR Part 805 (see Sections 805.213 and 805.214(b)).

The prototype cost determinations for the semi-annual update are based on Field Office estimates of example dwellings, actual public housing and insured multifamily project data and construction cost information published by the private segment of the housing industry.

Where prototype schedules are established for special Indian prototype cost areas in accordance with 24 CFR Section 805.213, the prototype cost limits apply only for development of Indian Housing (these special areas are identified by an asterisk (*) on the schedules).

Section 6(b) of the U.S. Housing Act of 1937 provides that the prototype costs shall become effective upon the date of publication in the **Federal Register,** and this Notice is, therefore, made effective upon publication.

Timely written comments will be considered and additional amendments will be published if the Department determines that acceptance of the comments is appropriate. Comments with respect to cost limits for a given location should be sent to the local HUD office. A list of these offices follows:

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR Part 50, which

implement Section 102(2)(c) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact will be available for public inspection during regular business hours in the Office of the Rules Docket Clerk, Office of the General Counsel, Room 5218, HUD, 451 7th Street, S.W., Washington, D.C. 20410.

Reference Catalog of Federal Domestic Assistance program numbers 14.146, Low Income Housing-Assistance Program (public housing), and 14.147, Low-Income Housing-Homeownership for Low-Income Families (Turnkey III, Mutual Help for Indians).

Upon the following consideration, the prototype costs are determined to be as set forth below.

A. Unit Prototype Cost. 1. Prototype cost comprises the cost of dwelling structures, account No. 1460, and dwelling equipment, account No. 1465, as described in HUD Low-Rent Housing Accounting Handbook 7510.1, Chapter 3, Section 15, which includes a pro rata share of the builders' fee and overhead, insurance, social security, sales tax, and bonds.

2. Prototype cost does not include the costs of site acquisitions, site improvement, nondwelling structures or spaces (and equipment), planning (architectural-engineering fees, permit fees, inspection, and similar costs), relocation, interest or PHA administrative costs, all of which are described in HUD Low-Rent Housing Accounting Handbook 7510.1, Chapter 3, Section 15.

3. The determination of prototype cost shall consider:

(a) For development of public housing under Part 841, compliance with applicable HUD Minimum Property Standards and planning and design criteria described in HUD Public Housing Development Handbook 7417.1 REV-1, Chapter 9, and for development of Indian Housing under Part 805, compliance with applicable HUD Minimum Property Standards and design criteria required by 805.212(a). Currently, copies of HUD Handbooks are maintained and available for public inspection in the Publications Service Center, Room B-258, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410, and in each of the Department's Regional, Area and Service Offices.

(b) The additional cost to provide, as required by Section 6(b) of the Act:

(1) The extra durability required for safety and security and economical maintenance of such housing,

(2) The provision of amenities designed to guarantee a safe and healthy family life and neighborhood environment,

(3) The application of good design as an essential component of such housing for safety and security as well as other purposes,

(4) The maintenance of quality in architecture to reflect the standards of the neighborhood and community,

(5) The need for maximizing the conservation of energy for heating, lighting, and other purposes,

(6) The effectiveness of existing cost limits in the area,

(7) The advice and recommendations of local housing producers, and

(8) With respect to remote areas such as may be found in connection with projects developed under the Indian and Alaskan Native housing program assisted under this Act, the extensive transportation required to provide the necessary labor, materials, and equipment to the project site and any additional conditions that the Secretary has taken into consideration under clauses (1) through (7) for such projects.

Accordingly, the prototype per unit cost schedules for all prototype cost areas, issued under 24 CFR Part 841, Prototype Cost Limits for Low-Income Public Housing, are hereby established as shown on the tables set forth hereinafter entitled "Prototype Per Unit Cost Schedule—Regions I through X."

(Sec. 7(d), Department of HUD Act, 42 U.S.C. 3535(d); Sec. 6(b) of the U.S. Housing Act of 1937, 42 U.S.C. 1437(d))

Issued at Washington, D.C., June 22, 1981.

Philip D. Winn,

Assistant Secretary for Housing—Federal Housing Commissioner.
